EARLY PACTS GO INTO EVIDENCE

Government Claims Victory
in Ruling of Judge
Angell.

IN BATH TUB CASE

Detroit, Mich., Feb. 9.—The trial today of the government's criminal charges against the so-called bath tub trust was marked by what the government claims to be a victory for its side, when United States District Judge Angell ruled in favor of the submission of counter agreements signed by members of the defense prior to the final agreement charged in the indictments concerning the alleged license plan and re-sale prices.

The defense bitterly opposed the submission of the evidence on the ground that the documents were written prior to the making of the alleged agreement and were not effective inasmuch as they were not signed by all of the defendants and were never put into effect. The government maintained the evidence was admissible because it would show the different steps taken by the defendants in forming the alleged conspiracy.

The government alleges that Edwin L. Wayman drew up the trade agreements and Wayman is described as an unwilling witness. He gave little testimony yesterday, so constant and lengthy were the clashes between the attorneys over legal points raised by the defense.

BARNHART AFTER ANOTHER "TRUST"

Indiana Congressman is on
Trail of the Horseshoe
Business.

PROBE IS PROMISED

Washington, Feb. 9.—The department of justice will undertake an inquiry into the National Horseshoe Manufacturers association which, it is charged, controls the sale price of horseshoes throughout the country. Complaint was made by Representative Barnhart, of Indiana, who today received a telegram from Attorney General Wickham saying an investigation soon would be undertaken. Mr. Barnhart charged the retail dealers, who declined to recognize the sale prices fixed by the national association, had been refused further supplies of shoes.

Increased appropriations for army airplanes was declared to be the most important action congress could take to improve the efficiency of the army, by Republican Leader Mann in the house today. In the debate on the army appropriation bill Mr. Mann declared the United States was behind other nations in the use of the airplane for war purposes and should reduce other expenditures if necessary to increase its aerial force.

The republican members made an effort to increase the \$7,000 for airplanes carried by the bill to \$125,000, but the amendment was defeated, 102 to 74. Chairman Hay, of the military affairs committee, declared the bill carried all that had been asked for by the war department. Mr. Hay said the army had seven airplanes and wanted a fleet of twenty, which would be provided.

OPPORTUNITY

KNOCKS ONCE AT EVERY MAN'S DOOR. If you let this opportunity slip you may never have another to equal it. We don't try to fool you by telling you we sell at 1/2 price, for if goods can be sold at 1/2 price they were marked too high to begin with; but we will say that our goods were marked \$5.00 to \$8.00 lower than the other stores and with the honest reduction we are giving, brings them still lower than others. Come in and look; convince yourself; Suits and Overcoats, all patterns, none reserved. Start at \$7.95 and end at \$12.95. your choice.

Don't buy a hat because you can buy it for \$1.00 when we are showing a lot of new Spring Hats at \$2.00—no more, no less. To buy an old, out of style hat means to buy another in another month.

Washington, Feb. 9.—H. W. AGAINST A DIVORCE

Milton G. Koontz put up a fight in the superior court today to prevent his wife from securing a decree of divorce on the ground that he had failed to provide for her and their two children.

She accused him of having neglected his family and he entered a denial and does not ask a decree, but is simply trying to prevent the wife from getting it on the charges made against him.

that the abdication of the throne would be an accomplished fact before Feb. 18.

There appears to be less confidence now than there has hitherto that Yuan Shi Kai will be selected for the presidency of the republic. On the other hand, the name of General Li Yuan Heng, the present vice president, is mentioned, and it is possible that he may be eventually selected.

The draft of the proposed magna charta of the new Chinese republic has been completed by Dr. Wu Ting Fang, the minister of justice in the republican cabinet, and now awaits the approval of the senate at Nanking. The document provides for a presidential term of five years, but the senate probably will make the first term only one year.

It is thought that a compromise may be reached on the question of the future capital of China. President Sun Yat Sen, however, asserts positively that Nanking will be selected although he admits that an agreement may be made to keep Peking provisionally as the nominal capital.

Disputatory outposts fighting continues in many places, but the reports as to the casualties are very much exaggerated on both sides.

SHERIDAN GIVEN
DICTAGRAPH TEST

(Continued from Page One.)

Lorimer case when Miss Helen Seavers, a Postal Telegraph operator at the New Willard hotel, testified before the senatorial investigating committee that Edward Hines attempted two weeks ago to bribe her to show him a message sent by A. C. Bailey, a Burns detective.

Miss Seavers quoted Mr. Hines as saying: "If you will let me see the message I'll put something in your paw."

Miss Seavers, who declared she was 20 years old, said Mr. Hines held a roll of bills in his hand while he talked with her.

Mr. Bailey's message was sent to Harry E. Kerr. According to Miss Seavers, Mr. Bailey informed Mr. Kerr in the telegram that a hearing of the committee had been postponed. Mr. Kerr was in Detroit at the time.

Says Hines Offered Money.

"Mr. Hines asked to see the message sent to Mr. Kerr a few minutes after Mr. Bailey had given it to me," said Miss Seavers. "I said it was impossible and against the rules. He said he knew it was, but that it would be worth a good deal to him."

"Mr. Hines held some green paper money in his hand and said: 'If you will let me see the message, I'll put something in your paw.' The money was rolled up and I did not see how much there was in his hand."

"I told Mr. Hines that I couldn't do what he asked. He told me to think it over and he would come back later. He came to me a second time and I told him again that I couldn't let him see it."

Miss Seavers said when she told Bailey about the matter the following day he said to her:

"Little girl, I don't want you to show any of my messages to anyone."

Hines Makes Denial.

Later Edward Hines issued this statement: "I did not, directly or indirectly, offer the girl money or any other inducement to see the telegram, and had no money of any kind in my hand at the time. The whole story is an absurd fabrication, concocted by the Burns detectives."

Edward Hines today denied absolutely before the committee that he had tried to bribe Miss Helen Seavers, telegraph operator in a local hotel to show him a message Detective Bailey had sent H. E. Kerr. Hines said on the day in question upon going to Miss Seavers' table to withdraw a message he had given her to send, he saw a message from Bailey to Kerr about "a hearing postponed."

"She took it up and asked me if I was interested in it," said the witness. "I said 'a little.' Then she turned it face down."

"Did you offer her money to see the message?" Attorney Hancey asked.

"No. I had already read practically all of it."

In cross examination Attorney Healy asked Mr. Hines if he had not gone to the operator who relieved Miss Seavers telling him he was A. C. Bailey, and asking for a copy of the telegram.

"No sir."

"And a copy was placed in Mr. Bailey's hotel box?"

"No sir."

UP GO THE FEES OF GARRETT DOCTORS

They Say the Increased Cost of Living Makes This Action Necessary With Them.

Garrett, Ind., Feb. 9.—The Garrett Medical society at its meeting held during the last week, adopted a new scale of prices to govern its members in the practice. It is as follows: Office fees—office call and prescription, 50c; \$1; physical examination, \$1.50; dressing injuries, \$1.50; electrical treatment, \$1.50.

Practice fees—day calls, within radius of one mile, \$1.50; night calls (between 9 p. m. and 6 a. m.), \$2; diphtheria, \$3; scarlet fever, \$3; smallpox, \$3; confinement, \$15; \$30; consultations, \$3.

An additional charge of 50 cents mileage for each mile or fraction thereof beyond the one mile radius.

In making this increase the physicians in their circular issued explain their action as follows:

"Physicians' fees in and around Garrett have remained practically unchanged for the last twenty-five or thirty years. During that time all other prices have been raised; workingmen's wages have increased; the merchants' prices become higher; the farmers receive more for their produce and the cost of many of our most commonly used drugs have practically doubled. These facts have combined to greatly increase the cost of the physicians' livelihood without contributing anything to his income, leaving him as has only resource to increase the volume of his practice, which of course has a definite limitation and which, owing to the medical profession's advances in sanitation and preventive medicine, tends constantly to become more narrow. Hence the new schedule."

OBITUARY.

Ossian, Ind., Feb. 9.—Rebecca Green, maiden name Markee, was born in Tuscarawas county, Ohio, April 4, 1830, and died at the home of her daughter, Mrs. Margaret Cartwright, Marion, Indiana, February 2, 1912, aged 81 years, 9 months and 28 days.

She was united in marriage to William Green in 1847. To them were born twelve children, six sons and six daughters; all of whom were born in Tuscarawas county, Ohio, where six of the children passed to their long homes. The parents, with the remaining six children, came to this country, Indiana, in 1873.

After the death of father Green, which occurred in 1883, mother Green remained on the farm for two years, then came to Ossian. For the last two years her home was with her daughter, Mrs. Margaret Cartwright.

She first united with the Pleasant Grove M. E. church, in 1866, while living in Ohio, and on moving to Wells county, she joined the United Brethren church at Zion, four miles east of Ossian, where she held her membership until transferred to the Ossian class of the same church. She was held in high esteem, not only by the members of her own church, but by all who knew her. It was her aim in life to so live, that when the Master would call, she would have her house in order, and be ready to go to live in the presence of Him, whom she so faithfully served.

When the chariot of Israel came at length, in that valley where God walks close to His children, she entered the chariot and went home.

She leaves to mourn her departure five children, Isaac, near Popo, Ind.; James, of Fort Wayne; Robert and Charles, of Ossian, and Mrs. Margaret Cartwright, of Marion, Ind.; also eleven grandchildren, with many other relatives.

Funeral services will be held at 2 p. m. Tuesday at the home of her daughter, Mrs. Margaret Cartwright, Marion, Ind.

Interment will be in the cemetery at Marion, Ind.

OSSIAN NEWS.

Ossian, Ind., Feb. 9.—Mrs. Christina Mockey, better known as "Grandma" Mockey, died early Tuesday morning at the home of her daughter, Mrs. John Dettmar, living northeast of town. Mrs. Mockey fell several weeks ago and sustained severe injuries which have resulted in her death. She was about 78 years of age. Her husband died seventeen years ago. Surviving her are four daughters—Mrs. Anna Greuber, of Fort Wayne, and Mrs. John Dettmar, Mrs. Lizzie Cloud, Mrs. Floss Archibald, all of near Ossian, and three sons—Henry, John and William Mockey, all of this vicinity. The wiring is now finished and the current is to be turned on Saturday evening with considerable demonstration. A party is to come out from Fort Wayne in special car and assist in the exercises of the evening. About fifty of the officials and prominent men connected with the Fort Wayne Electric Co. are to be present. These guests, together with the business men of Ossian and their wives, are to be given a banquet in the basement of the M. E. church by the ladies of all the churches. A pretty girl, chosen from among the Ossian young people, will push the button which is to start the current and make Ossian a little town lighted by electricity.

BREAKS A COLD IN A FEW HOURS

Says Quinine Isn't Effective in the Cure of Colds and Grippe.

Nothing else that you can take will break your cold or end grippe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound.

THE GAME OF A MASTER.

During the seven years he was president Theodore Roosevelt proved to the managers of his party—and these included Senator T. C. Platt, Senator Quay, Senator Hanna, Postmaster General Payne and others—that he was the most accomplished in the remarkable coterie associated with him. He is just as good a politician today. He will not be forced into any position; he will not be coerced into any declaration. When the time shall come, if it should, that a nomination may be his for the acceptance of it, he will be prepared. If such a time shall not come, he will seem still to be standing pat on the statement that he is not and has not been a candidate. Nor will he be decided by the mere possibility of getting what may seem to be a freely tendered nomination by his party. Beyond the convention will lie the election—more important in his peculiar considerations than even the nomination. Colonel Roosevelt is recently quoted as giving to the progressive element of his party the firm assurance that he will be with it to the last trench. This is not alone for inspiration of the progressives. It is notice given and to be taken as to the kind of platform he wants. It is also an ingenious way of making it known to the national administration and its supporters that the maker of Taft does not approve the Taft record. Meanwhile, the Great Enigma will bide his time like a wise man and a good politician. He will speak the word at the psychological moment, if it is to be spoken. That word will be the ultimate yes or no, as his view of the situation may dictate. If any blunder shall be committed he will not be the author of it.

PARK BOARD'S REPORT.

The annual report of the Fort Wayne board of park commissioners shows a fine record of achievement for the year just passed. But as good as this showing is, it will look poor by comparison with what this year will show, if all that the board is planning and all that it should make possible is carried forward. The park board should be enabled before the end of this year to report the purchase of the river frontage and the acquisition of sites for at least four more parks. The board makes the suggestion that the opportunity is ripe and inviting to four Fort Wayne citizens of means to build monuments to themselves and confer vast benefits on the people of the city by purchasing these needed park sites and donating them to the city. Surely each of the donors of four such gifts will have no need of other monument to his memory. No public benefactions could confer benefit upon and afford so much pleasure to so many people. And they would besides be endearing. Not only this, but all succeeding generations would have the possession and enjoyment of them.

Charles M. Schwab, the steel magnate, denounces the new steel schedule as a menace to the steel industry in this country and threatens to quit business if the house bill becomes the law. Labor conditions, he says, make it impossible to turn out steel in this country at such a price as to compete with that abroad. A few days ago Andrew, who brought Schwab up from a poor steel mill worker to a multimillionaire, declared to a congressional committee that the steel industry in the United States was in no need whatever of tariff protection; that the steel interests of America were able right now to compete in the open markets of the world for business and get it. Surely Mr. Carnegie knows what he is talking about when he speaks of steel making and steel markets.

The Belfast riots so freely advertised during the past month turned out to be a very tame affair. Churchill came, the home rule meeting was held and no one seems to be the worse for the incident. Perhaps the presence of an ample military force had much to do with the mildness of the outbreak, though it is not less probable that the opposition did as much as they purposed in any event to do. In view of the immense publicity given to sensational forecasts of the bloody things that were going to take place, it seems reasonable to suppose Belfast and Ulster were giving themselves an extensive campaign of free advertising.

The chief concern of the public in the agricultural department does not relate to the quality of Florida lands, but, to finding out why a great executive department of the government could be manipulated for the benefit of land speculators and land sharps, as it is believed the same department had been manipulated in the interest of those who are opposed to a salutary and beneficent enforce-

ment of the pure food and drug laws. The public wants to know what is covered up in the agricultural department.

Two Indiana night-riders convicted does not make a very high batting average against the state's scores of outrages at the hands of whitecap outlaws during the past twenty years, but the results in this recent pair of Monroe county trials make a fine start. They furnish fine proof that what all along had been thought impossible can be done—even in Monroe county, and if there, anywhere in the state.

Samuel Gompers says he is willing to suffer for the right of free speech. It may perhaps have been observed that there has not been up to the present hour of writing any very noticeable suppression of Mr. Gompers. As a witness he contrives to turn his testimony to profitable account.

All the land in Florida is not the kind that figures in the latest agricultural department scandal. Florida can raise lots of things besides alligators, moccasins and bullfrogs. She does—including the price of her lovely citrus fruits, every now and then.

The Colonel is now represented as at least being in with the insurgent cause to the death, if need be. Just being "in" will not save the republican party.

To be the first to give a park to Fort Wayne will be an added distinction, even if the others come right along.

OIL PRICES GO UP.

(New York Globe.)

The financial world has a phrase that seems to describe the competition that has been forced on the subsidiaries of the dissolved Standard Oil company and the dissolved American Tobacco company. The members of the family are compelled by law to occupy separate bedrooms and to go to the expense of maintaining separate kitchens and dining rooms, but so far they have refrained from springing at each other's throat.

The public has waited with interest to see what effect, if any, competition en famille would have on prices. With respect to oil the influence thus far seems to be of a boosting rather than of a depressing character. Since the dissolution three advances in oil prices have occurred, and they are now thirty-three per cent. higher than last fall. Perhaps oil prices would have gone up anyway. Wickersham will doubtless say they would have and warn the public against confusing post hoc and propter hoc.

Nevertheless, not even in deference to Wickersham's feelings can the public abstain from printing the following interrogatories: Doesn't it cost more to maintain thirty-three establishments than one? And if it costs more, must not the consumers pay the increased bill in higher prices? Competition on family is a luxury. It may be worth all that must be paid for it, but we have no right to expect it to be cheap. For many years, as was shown in the oil litigation, and as the attorneys for the government practically conceded, the wholesale price of oil did not advance, or did not in the degree that the prices of other commodities advanced. Old John D. said this was because business was done on so large a scale that he could sell oil more cheaply than any one else and still heap up something for himself and for colleges and for research work. But with great force and energy it was replied to John D. that he was a wicked and abominable old scoundrel. One and all we denounced his assertion that he had cheapened oil as born of sniveling hypocrisy. Was not John D. very rich? How could he become very rich except his charges were high?

Competition on family of the Wickersham type has the trust vice of common prices without the trust virtue of the greatest possible economy in production and distribution. It is not likely in the long run to prove a popular system. When movement shall have paid a few more Irish dividends, as it has with respect to oil and tobacco, even Wickersham will come around to the view that the thing to do is not to end but to mend Big Business.

REGULATION OF TRUST.

(Detroit News.)

The replies of the representative people to whom were submitted a series of questions on the Sherman law by the National Civic Federation indicate little sentiment in favor of the unconditional repeal of this much discussed law. On the other hand, practically no desire was evidenced to abolish combinations. The general opinion of the 10,000 people catechized was that the government should regulate large combinations.

A large number of people are thus seen to conform with the attitude here often expressed and advocated by Colonel Roosevelt. But while so great a body of public opinion is convinced of the impracticability of compelling competition, and the undesirability of crushing out industrial and commercial effort, not so many are agreed as to just how much regulation is necessary. A few ask for the regulation of trust prices. More suggest the regulation of trust profits. Others are content with a compulsory federal incorporation act accompanied with federal regulation of capitalization.

The regulation of prices would seem to be at once the most paternalistic, and therefore in line with the observed socialistic tendencies now arrayed to curb undue individualism, and the most immediately effective in its relation to the consumer. But it only seems to be so. For a regulation fixing the price of steel might operate in favor of the huge corporation, and against the lesser producer. But a regulation fixing the profits of a corporation, there is where the vital spot is touched. The limitation of profits of great combinations that are in restraint of trade, their enforced federal incorporation, and the regulation of their capitalization would be the least radical, and the most effective method. And, in so far as the Roosevelt program has been outlined, it embodies these very features.

PITTSBURGH'S TESTIMONY.

(Pittsburgh Gazette-Times.)

The Men and Religious Forward Movement which has been stirring up Pittsburgh for the last five days seems to have a twentieth century message for twentieth century people. This message is the practical application of the teachings of Christianity to modern conditions. It calls volunteers to social service. It makes the men of the churches feel their direct, personal responsibility for the giant wrongs that disgrace our civilization. Without counseling them to pray less, it insists that they shall work more. It is the friend and not the rival and critic of the churches. And its warmest supporters are the ministers, who welcome this enthusiastic, revitalizing force as the manifestation in religion of that same spirit of progress which is at work in the fields of more material activity.

Wherever this movement has spread there has been a quickening of interest in religious matters on the part of men and boys, which has found expression not merely in an increased desire to attend church and sit passive in the pews. The men who have become imbued with this fresh zeal for spiritual experience have also been stimulated to enter more fully into the work of the church, to reach out and bring others within the range of its influence, and that is why the ministers perceive in this movement a valuable ally and are lending it their hearty support. Several days of the local campaign still remain. There are many meetings to be held at which men of national reputation will speak. The men who does not understand this movement, who may doubt its sincerity or its efficacy, who does not appreciate its significance, should attend one of these meetings. He is the kind of man it is after. He will have his eyes opened. Pittsburgh is putting its O. K. on the Men and Religious Forward Movement. The last five days have shown what it can do.

COL. FOSTER
A SOCIALIST?

Editor Sentinel—The colonel is a nice gentleman, but he advocates to discontinue the Chicago excursions, (business for the railroads,) they need it, so does the colonel, judging by the height of "holier" he put up at the meeting of the Retail Merchants meeting the other night. In the next breath he advocates the city going into the real estate business, as he says the lots the Reservoir park occupies cost \$24,000 when bought, which was plenty at that time, thirty-one years ago, and are now worth \$150,000. He fails to compute interest on the investment and street assessment, sidewalk and sewer assessment, etc. Withal he is misloading the public. He also says by platting the river bottom swamp land, where the mosquito sharpens his sting, and proceeds to devour whom he may find, where the tuncful chorus of the bullfrog and the sweet scented odors of the beautiful river, will dazzle the purchaser and put a crimp into his bank roll, to the lasting benefit of the city treasury. All well and good; now, if it will pay the city to go into the real estate business, why not the cigar business, the furniture business, also ice, contractor, banking, saloon, telephone, clothing, butcher produce, etc? Then put a parkway through Duck Alley and with the balance of the loose change build a nut-factory. I think the colonel is a socialist. How about the piling in the river?

JUST MIX
MENTHO-
LAXENE

With Granulated Sugar and Water and You Will Have a Large Pint Bottle of the Finest Acting Cold and Catarrh Remedy and Cough Syrup You've Ever Tried.

It's Cheaper Than Buying Ready-Made Remedies, Besides It's Pure and Guaranteed Effective Always.

Usually a family spends two to five dollars every winter for cough, cold and catarrh remedies, buying 25c worth at a time.

For instance, a two-ounce bottle, at 25c, will contain about four-fifths "syrup" and one-fifth "medicine." That's paying too much for ordinary syrup; you can make a half gallon of syrup for 25c.

The syrup, extra bottles, labels, corks, cartons, etc., make this method of buying very expensive by the end of the year.

A little thought and wisdom will save any family several dollars and give them pure and better medicine, too.

Make a simple syrup with a pint of granulated sugar and a half pint of boiling water; then buy the pure concentrated essence Menthio-Laxene at your drugstore (2½ oz. bottle) and empty it into a pint bottle or jar and then fill it up with the syrup.

Now you have a season's supply of the purest, best and most promptly effective cold and catarrh cure and cough medicine that it is possible to obtain. It keeps indefinitely, and cures young and old of colds, catarrh coughs, bronchitis, hoarseness, shortness of breath, and all lung and bronchial trouble. It is the only remedy that cures coughs and drives catarrhal matter out of the system, by its tonic-laxative action. It improves the appetite, reduces fever and strengthens the system, thus avoiding chronic ailments and consumption.

Directions with each bottle of Essence Menthio-Laxene tell how to make and how to take. The manufacturers also guarantee to refund money to any one not pleased by its thorough effectiveness.

ROOSEVELT MEN NOW LINING UP

Important Conference Will Be Held in Chicago Tomorrow.

FRAMING A CAMPAIGN

Chicago, Feb. 9.—The campaign for the nomination of Theodore Roosevelt for the presidency will reach one of its important stages tomorrow. Governors of several states and members of the national Roosevelt committee will gather then at the Congress hotel.

"It is my judgment that a more notable and representative body of men, coming directly from the people, never has gathered in the history of American politics than that which will meet on Saturday," asserted Chairman Alexander H. Revell of the national Roosevelt committee yesterday.

While not indicating what the program of the conference is to be, Chairman Revell intimated subjects of the greatest importance will be considered. He believes a concrete and definite statement of the Roosevelt sentiment from one end of the country to the other may be prepared and issued officially by the conference.

May Bring Reply From Roosevelt. That this statement will reach Mr. Roosevelt is deemed certain at Roosevelt headquarters. It may elicit a statement in reply from the colonel. This was not stated, however, by Chairman Revell or by any officials of the preliminary organization which has been in charge of the early part of the Roosevelt campaign work.

Following the conference which begins at 10 o'clock tomorrow morning and will continue through the day, the Roosevelt committee expects to begin the second stage of the campaign for delegates to the national convention.

"The organization work which has been conducted by individual states and which has demonstrated that the Roosevelt tide has swept everything before it is to be nationalized. It will be conducted from these headquarters as a concrete proposition," Chairman Revell said.

Mr. Revell made public a letter received from R. E. Stout, managing editor of the Kansas City Star, giving the details of a poll made by that newspaper, in which 111,358 votes were cast on the presidency. Fifty-two percent of the entire number were for Roosevelt.

"The result," as Mr. Stout says in his letter, "was astonishing to him and it astonished us." Chairman Revell said, "The scattering polls which have been made in various sections of the country have all been one way, but this showing convinces us absolutely and must convince others that Roosevelt must be the next republican nominee."

Governor Addresses Constitutional Convention Delegates.

Columbus, O., Feb. 8.—Gov. Judson Harmon today addressed the delegates to Ohio's fourth constitutional convention in session here and announced his position on several of the most important issues before the convention.

Gov. Harmon declared that he is not in favor of state-wide initiative and referendum at this time, suggesting to the delegates that they wait for results of the experiment in other states.

He declared that the liquor traffic matter is one for the municipalities to decide for themselves. Temperance people are making an effort to have a state-wide proposal incorporated in the new constitution. He also advocated home rule for cities and villages and state aid in the good roads movement.

SUBLET JOB TO CANADIAN.

Postmaster at Beebe Plain, Vt., Will Be Summarily Fired.

Washington, Feb. 9.—Subletting the work and responsibility of his office to a Canadian has got Postmaster C. M. Bailey, of Beebe Plain, Vermont, into difficulty with the postoffice department. His resignation has been called for. Beebe Plain is on the Canadian boundary line. The line, in fact, passes directly through the postoffice. Four-fifths of Beebe Plain is in the Province of Quebec and the Canadian postmaster has his office not only in the same building, but in the same room as the American postmaster.

Postmaster Bailey farmed out his office to the Canadian official, retaining only \$75 a year of his salary of \$225 for the use of his name. Bailey performed no new duties himself, the work all being done by the Canadian.

There were twenty-five ladies at Mrs. L. O. Hull's bridge party this afternoon who enjoyed an informal game and other delights provided by the hostess. Pink carnations filled vases in the parlors and dining-room and the supper menu was served with dainty appointments with the color of pink appearing as often as possible. Very pretty favors of little baskets filled with confections were given. Mrs. Hull was assisted both today and at the bridge she gave yesterday by her daughter, Miss Mabel Hull. Invitations to three card parties have been issued by Mrs. J. C. Craig, of Masterson avenue, for Thursday and Friday afternoons and Friday evening, February 14 and 15.

visiting Mr. and Mrs. A. Mergentheim. Mrs. Mergentheim will leave shortly for Philadelphia and New York for about a month's stay.

THE DERBY MEETS WITH FASHION'S FAVOR

The derby hat, heretofore considered the sole property of man, has now met with feminine favor. Derbys in beaver, velvet, silk and straw have made their appearance in all of the smartest shops, and the

activity with which women have welcomed them assures this odd fashion a prolonged success. Sometimes the derby is trimmed, sometimes it appears without any orna-

mentation, and either way the hat is considered immensely chic. Illustrated is a derby of the untrimmed variety in black silk heavier, also one of the new straw hats designed for the young girl.

on Wednesday evening by Mr. and Mrs. Emil Smet, of Wall street. Officers were elected. Will Lindenberg being elected president and Chris Lindenberg, treasurer. The guests played pedro, danced and enjoyed a fine supper. There were twenty-four members of the club.

The same orchestra has been engaged by the Morning Musical society to give a concert here in March. Mrs. Dukes will visit Mr. and Mrs. Theodore Ruhland in Chicago before she returns home.

Morton and Virginia Thieme, twin children of Mr. and Mrs. J. G. Thieme, entertained a few neighborhood children this afternoon after school at a birthday party. Yesterday was the children's real natal anniversary, but a playmate, Margaret Ann Keegan, has a birthday on the same anniversary, so someone must always wait for the other when it comes to parties.

That game was followed by a delicious supper served with a Jack Horner pie on a table decorated with yellow candles and other dainty things of the same coloring to make it pretty. Everybody had a splendid time. The guests were Dorothea Fox, Charlotte Auger, Louise Metzger, Virginia Thieme, Julia Bash, Inez Hartzler, Frances Bradshaw, Catherine and Loretta Gilmartin.

A Country Party.

In spite of the wintry winds of Tuesday evening a merry crowd of young people enjoyed a jolly sleigh ride of several miles into the country. They made the cold air ring with their peals of laughter, mirth and song which was continuous until they alighted at the hospitable doors of Mr. and Mrs. Theodore Sorg. Games, dancing and singing were enjoyed and at a late hour a fine luncheon was served. The party consisted of the Misses Marie Wyss, Ella Hallfeldt, Leona Sorg, Ellen Lallak, Marie W. A warm welcome was given the guests and they soon forgot the cold and enjoyed themselves to the fullest extent. A fine dinner was served the guests.

PASTIMES FOR BOYS.

There are also many pursuits for boys in their homes which, if studied thoroughly, may prove a means of livelihood some day. Take amateur photography, for instance. Almost every boy gets the camera craze sooner or later. Why not induce him to go into it thoroughly while he has the hobby? Let him develop and print his own pictures and learn all he can about the mechanism of the camera.

Then there is a pastime, which has come into prominence in the last year or two which even the very young children can do. This is the making of brass work ornaments. It is very simple work and quite engrossing. The brass can be purchased with a design already drawn ready to work on, or it can be bought by the sheet so that the child can draw his own design and then proceed to the hammering. Burnt wood is another amusing pursuit on the same

order, but this may prove hard on the eyes. A great many boys are clever with carpenter's tools. The selection for the object of such training is comparatively simple and depends largely on the child's own inclinations. Even if you plan to make your boy a lawyer or a doctor, teach him a possible trade. This suggestion may seem futile to the mother who thinks her darling will be well cared for, but she may find later in life that it has its benefits. If the child never has need of this learning so much the better, but if he should need it, then he has something to fall back on.

DAILY GAIN IN WEIGHT

Comes to Those Who Use Samose, Say Druggists Meyer Bros. Co.

The poor, thin, emaciated person, when he or she becomes plump, rosy and robust by using Samose, forgets that there is such a thing as weakness and underweight.

Samose restores health to the whole system so that the tissues assimilate from the food all of those elements which make solid bone, firm muscle, pure blood, and sufficient fat to restore beautiful and symmetrical outlines to the figure.

An increase in weight is seen from the first week's use of Samose, but it does not restore you to your proper weight and give you full vigor and vitality. Druggists Meyer Bros. Co., Four Drug Stores, will return your money. You certainly can afford to try Samose on this guarantee.

and dinner gowns, and, mounted on tulle, lace is introduced also into the trimming of afternoon gowns, while, in order to be more extravagant, a border of fur, preferably skunk or ermine, usually accompanies the lace.

As to the skirts they, too, have their flounces and panels, particularly the train panel of lace, but, as can be very well understood, this is far too costly to be carried out in most cases in real lace. Among recent notions, therefore, may be mentioned the trimming of the bodice alone with real lace, while a clever imitation is used on the skirt.

French laces are growing jealous of the success lately achieved by the heavier Irish and Venetian styles, and during the coming months a strong effort will be made to popularize the finer and lighter makes, though, as a matter of fact, many laces which bear the name of other countries are actually made in France.

It is, of course, a truism to repeat that the imitations are so wonderful they can hardly be distinguished from the real, and if one has money to purchase the genuine it is as well to know how to distinguish between the two sorts. All laces that are needle-made should be, if they claim to be real, made throughout by the needle, and by turning the back of the lace you will find whether or not the flowers are wrought as part of the foundation, or merely laid on as motifs, as is the case with many very pretty and effective laces. Pillow-made laces are more easily imitated than those made by the needle, and they are always exceedingly effective.

A NOVEL LITTLE GIFT.

What to give the convalescent to while away the hours, or the friend about to go on a journey, is a question which frequently confronts us. Something to read is usually a safe answer to this question, and here is a notion for a novel gift book.

Get a small blankbook with a good number of pages—a book about 5x7 inches is a convenient size—then cut from various magazines and newspapers short stories of a cheerful trend, gay little verses and a few jokes. Arrange these so that there will be a restful difference in thought as the pages are read, and you will find you have made a most charming and acceptable gift, expressing both your thought for your friend and an appreciation of his or her tastes in your selection of stories.

Care should be taken not to make the book too heavy to hold comfortably. This book may be made of heavy wrapping paper tied twice with bright

MORE HINTS ABOUT CALLING.

The caller usually takes the requisite number of cards from her case before ringing the doorbell. If she is a married woman calling upon a married woman who has invited her recently to a dance or dinner, she takes two of her husband's cards from her case with two of her own. Her two cards are enough if she asks to see the ladies, implying thereby her hostess and one or more daughters. If the hostess is entertaining a sister, a friend, her mother or a married daughter at the time, the lady calling then takes out three of her own cards and with these in her hand she awaits the servant. Should the reply to her question be "not at home," she hands the cards to the maid and goes on. If the answer is that the ladies are in the drawing room, she puts her cards on the tray in the hall as she passes in to greet her friends. Occasionally a servant seems doubtful whether the ladies are at home or not; then, if the caller wishes to make sure, she gives the servant her personal cards only and waits in the drawing room to hear the result of his inquiries. Should the ladies prove to be not at home, then to these cards she adds those of her husband and leaves them all with the servant. On the other hand, if the ladies appear, she pays her call and on passing out puts two of her husband's cards in the hall tray.

SEWING-ROOM HINTS.

Never stint hooks and eyes; a few minutes saved in sewing on fewer fasteners will be lost many times over in pinning together open spaces between hooks.

It is best to sew sleeves in before finishing them at the wrist; also to adjust a skirt at the waistband, stitching this in place before turning up the hem.

To insure an even hem, if the skirt is cut long enough to touch the floor,

mark it at the floor length with tailor's chalk all round, then turn up the hem the desired number of inches from that point.

Another way to insure an even length is to place a yardstick on the floor, holding it close to the body and marking the point where it touches the body with chalk. This is done at intervals of a few inches all around; then from the chalk mark on the hips an even length is measured and the hem turned up.

If skirts are made of very thin, soft silk, face them for eighteen inches from the hem with a thin quality of flannel-ette. This gives body to the skirt's hem, yet is as soft and supple as can be desired.

French modistes use fine broadcloth for facing silk, but flannel-ette answers the same purpose and is far less expensive.

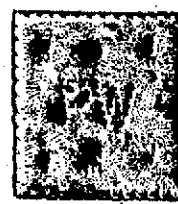

Exquisite Loveliness of Hair and Skin

(Annie Bly in The Realm.)

"The exquisite loveliness of English girls' complexion can be gained by American women who take the same care. Instead of powder and paint, use a simple lotion made at home by dissolving an original package of mayow tone in a half-pint of witch hazel. Apply in morning, rubbing gently, and your complexion will be as clear, soft and satiny as a baby's—with no dark or muddy discolorations.

"Abundant and glossy hair follows continued dry shampooing. Wetting takes the life out and makes hair brittle and colorless. Put a cupful of cornmeal in a fruit jar, add an original package of therox, shake together, and you have a six months' supply of shampoo powder. Sprinkle a little on the head and brush out well. Do this every week or two and your hair will be bright, fine and wavy.

"Don't neglect a cold. You must be well to look your best. Remember, colds lead to chronic catarrh. The best remedy for colds, catarrh, sore throat, croup, etc., is Mother's Salve. It is wonderfully healing."

KILLS HIMSELF; WIFE WILL LIVE

Wealthy Hammond Italian
Crosses Sea to Enact
Role of Othello.
BUT HALF SUCCEEDS

Hammond, Ind., Feb. 9.—Following his Desdemona across the seas, a modern Othello re-enacted Shakespeare's tragedy in the land in which the bard of Avon had placed it—in Italy.

Paul Scattina, wealthy Italian, former olive oil importer of Hammond, played the Moor. His wife, Filomena, was the modern Desdemona. But, unlike the play, Scattina died without accomplishing his purpose. His wife still lives.

News of the tragedy which occurred a week ago was received yesterday by Italian residents of Hammond. As lago, they had carried him tales of a lover whom, they said, had stolen his wife's affections.

Desire for vengeance overpowered the man. He followed his wife to Italy. While she slept he crept to her bedside, then drew a razor. Again and again he slashed her. With a revolver he ended his own life.

Fortune Placed at \$200,000.

Scattina, who was 45 years old, came to America, a penniless fruit peddler, twenty years ago. He worked diligently and saved his earnings until he had sufficient funds to return for a visit to his native land. There, nine years ago, he married Filomena. They came back to America, returned to Hammond, and Scattina amassed a fortune estimated at more than \$200,000.

Jago entered the story three years ago when he whispered his tale to the modern Othello. He told of a handsome young Italian who admired the merchant's wife. But neighbors intervened when Scattina threatened divorce. They persuaded him not to act because of his three children, one of whom was a baby.

Determined to end the alleged alliance, Scattina sent his wife and children to an olive ranch he had purchased near Massa, in the province of Lucca, Italy. From then on all was well until August of last year, when he received letters saying that his rival had followed his wife abroad.

Tries to Trap Woman.

Selling his business in Hammond, the enraged man hastened to his wife's home two months ago. Day after day he endeavored to trap her, to prove her infidelity. Whether a blood-stained kerchief, as in the play, determined him to bring the plot to a climax has not been learned. But he decided to end her life. Scattina went to his home in the olive grove. His wife still slept. Opening the razor, he awakened her.

"It is time for us to end all," he cried. The woman screamed and dodged as the man slashed to cut her throat. The knife fell and slashed her face. He cut again, and gashed her ears. She fell back in the bed unconscious.

Believing he had avenged himself, Scattina then turned a revolver against himself. He died as his wife regained consciousness. The modern Desdemona will live; any reports received yesterday.

TAGGART FOR PRIMARIES.

Democratic Leader Favors It in All Nominations.

Indianapolis, Feb. 9.—Thomas Taggart, one of the leaders of the democratic party in Indiana, endorsed the primary for the nomination of all officers, in a statement made last night. In speaking of the proposition, Mr. Taggart said:

"I favor primaries for the selection of delegates to state and all other conventions, and I am in favor of primary elections for the selection or nomination of candidates for all offices, from justice of the peace up. As a matter of fact, we have in Marion county primary elections for the naming of delegates. I favor the extension of the plan to Vigo, Vanderburg and all other counties. I expressed myself plainly in public on this matter some time ago. I do not see how there could be any question as to the position I then assumed.

"If any body is dissatisfied with the primary plan we now have in Marion county, I favor making the plan to suit the majority. It is my idea that it is

best to get as close to the people as possible. This means, of course, giving the voters an opportunity to go to their

rotting places in their own neighborhoods, there to vote for their own chosen men for delegates to the state or

other conventions. In my opinion, the plan carries the election machinery closer to the people than any other method would do."

HARD TO SPEND \$250,000.

Task Staggers Executor Enjoined to Use It for Charity.

Chicago, Feb. 9.—How to spend \$250,000 in charity is a problem that is too much for Charles A. Purcell, a mail dealer, and executor of the will of his sister-in-law, Mrs. Mary B. Purcell. She died in Los Angeles in 1911, leaving \$250,000 to relatives and \$250,000 to charity.

"I'm absolutely at sea as to what I should do with the money," sighed Purcell. "I never hesitated at a duty as I do this one. I wish I could get out of handling the money. My sister-in-law herself was at a loss as to how best to spend it. She desired to aid charity, but did not know where to begin. It's a bigger task than I care to assume, but I must. I tried handing out money to the poor on Christmas, but got rid of only \$6,000. At that I worked hard for

NEW OPPOSITION
TO CARSON PLAN

Wheeling Will Oppose It at
the Fort Wayne
Meeting.

OWNERS OPPOSE IT

Wheeling, W. Va., Feb. 2.—While Dr. Frank R. Carson's split schedule plan got a great deal of publicity and some complimentary notice from the metropolitan press, the Central league owners oppose it and when the matter is taken up at the meeting in Fort Wayne on Feb. 21, Everett Robinson and J. E. Anderson, owner of the local club, will be found arrayed against it.

"I am opposed to it," says Robinson, "for various reasons. The baseball public is no different from the general public in its demand for variety and action, and, in fact, I believe the baseball fans are really more exacting. The fans don't want to see Wheeling, Zanesville, Dayton, Akron, Youngstown and Erie battling against each other all season. They want, and have a right to see the clubs on the western end of the circuit as well as those of the east. A small saving of mileage might be effected by the split schedule, but any saving made on this end of the game would be overbalanced by the losses at the gate because of decreased interest in the race.

"Youngstown is putting up a vigorous fight against the split schedule and indications are that it will be opposed by most of the club owners in the league, and of course, it is doomed because it is the magnates who will decide."

Manager Anderson has gone to his home in South Bend, after consummating the deal by which he became a part owner of the Wheeling club. He will return to Steglind next Monday. The principal object of his visit to Wheeling next week is to find a location for his family. He expects to establish his residence in Wheeling just as soon as possible and then he will begin in earnest the work of getting a ball club together.

Arch Osborne, who pitched part of a season here, following Wheeling's loss of Richardson the year the pennant was won, and who more than likely saved that tug to the local club by coming down from East Liverpool just at a time when his services were so badly needed, has been turned over to Akron by Columbus, O.

TOTS DEPEND ON
THEIR SLAB MEN

Good Lot to Select from and
Grant Expects a Strong
Staff.

TEN TO PICK FROM

Terre Haute, Ind., Feb. 2.—Manager Grant is placing great dependence in a pitching staff that will be selected from Fred Alberts, Tom Cantwell, Ben Patterson, Bill Billard, Smith, Adams, Gilbert, Snadden and Nally.

Patience is looked upon as the coming member of the younger division of the staff. He did not show his proper form until late in the season when he pitched some remarkable games that were lost through the toughest kind of luck. Alberts is always dependable and although he didn't make a record that stood out last season he did as well as any pitcher could have been expected to do under the conditions that confronted him.

Billard is a puzzle. He worked to good advantage in the early innings of the games he pitched, but in most of them he lost his bearings and when he settled down the game was generally lost. He didn't appear able to go the route. This may be accounted for by the fact that he wasn't himself as far as physical condition was concerned. He submitted to an operation Wednesday for appendicitis, the climax to his ill health, and should he come out of the hospital in good condition, he will probably fit into the staff nicely.

Smith has had one year of service and is a youngster. He had lots of stuff last season and under Grant's wing is expected to improve.

The other candidates are newcomers in the fold, two of them, Snadden and Nally, being local boys. Snadden worked for the Vane last season, while Nally did some good hurling for the Miller High Lites. Both are right handers with good control, lots of smoke and a clever assortment of curves. They lack experience, never having played league ball before, but Grant has, in the past, taken youngsters right off the lot and developed them into league players their first season out, and the local lads may be of that sort. Both Snadden and Nally are well liked by local fans and they will have support in their efforts to stick with the team. They will be given thorough tryouts by Manager Grant.

Pickering is a new man in the league. He was last year's captain of the Minnesota football team and is said to be a good pitcher. If as good at baseball as at football he will make the clubs around the circuit take to the tail and uncit. Babe Adams, of the sunny south, has an enviable reputation. So has Larson, the semi-pro of Chicago, who was signed by Secretary Billy Wardland. Gilbert is a southerner. He was with Newark of the Central last season. He has expressed a determination to fight his way to a major league berth and such a spirit should go a long way in making the side-wheler a winner.

A few other tossers will likely be tried out in the spring, and should those under reserve fail to deliver, Manager Grant will go out and get some who can. But in the face of the proposition there is no reason to fear any explosion, and the Terre Haute club appears well fortified in the slugging department.

Earl Pickering will not coach Rose Poly at football next fall as suggested. The former Minnesota gridiron captain has signed to coach the University of Vermont, according to a tip received at ball headquarters today.

WESTERN GAS CONSTRUCTION BOWLING TEAM

Albert Bruns, Roy Peckham, Merrill Crouby, Clarence Stier, Edwin Slagle.

Here are five members of the bowling team of the Western Gas Construction company and the reason there are not six of them is that the other man was not all doped up. When this picture was snapped he was engaged in the task of driving a boiler.

More or less of a compound of engine oil and coal soot had found its way from

his gloves to his face, he didn't have a "doped" sidr like the others and he solemnly refused to stand for "The Sentinel's" camera. The missing bowler is Smith, who pitched for the baseball club connected with the Construction company and led the shop league last summer.

Athletics has taken a strong hold at the big works and the men are already framing up their baseball team for next summer with a view of winning the pennant. The bowlers are all youngsters and

have not made a very strong showing in the Manufacturers' league two, but they are improving right along and next year will put a team in the field that will give the others something to think about.

Just to show that the bowlers are popular it is only necessary to cite the fact that they have the only band of girl rooters in the league. Every night that the club is slated to roll at the Metropolitan all the lady rooters get there and pull for their team.

NOW FOR SCHEDULE

South Bend, Ind., Feb. 2.—Twenty-four thousand dollars of forfeits are now in possession of Dr. Frank R. Carson, of the Central league, and the twelve-team circuit is insured for the season of 1929.

The guarantee can drop out without losing the game and none will want to do that. Zanesville was the last to fall in line, but the boosters raised nearly \$5,000 to float the club and the directors consented to get the small balance needed and Potterton was a sure thing.

As soon as Erie and Zanesville select their managers the sailing will be smooth and everything will be in readiness for the schedule meeting at Fort Wayne on February 21. Until all doubt was removed about Zanesville and Wheeling it was not possible to figure on a playing plan for the year, but it will be all ready for submission in plenty of time.

Edward J. Anderson is not released from his contract with the Omaha club, but he has gone to Chicago to meet President W. A. O'Rourke and there is little doubt that he will be given his freedom, as the unwritten laws of baseball do not permit an owner to stand in the way of the advancement of the players.

"I just returned," Dr. Carson said, when approached after he had got back from a trip to Chicago. "and everything is all right." "All right" meant that every Central league club is in line and that a 12-club organization is assured. Zanesville's forfeit having been posted at last. The Buckeye board of directors has been given seven days of grace in which to meet its obligations to the league, and has made good, as President Carson predicted.

SPORTLETS

Charley Comiskey has reached the zenith of fame. He has had a cigar named after him.

President Murphy of the Cubs announced that he had received the signed contract of Earl Mosely, the young pitcher procured from the Youngstown, Ohio, club last fall.

And now some people are unkind enough to say that John James McGraw's little fuss with Richard Marquand was put on for a little publicity stunt.

Here it is nearly the middle of February and Terre Haute has not won the pennant yet. This has not happened before in eight years.

Jim Fox, former Wheeling first baseman and now manager of the Columbus, Ga., club, is rounding up his players for the season and has most of them signed.

William J. Klem, premier umpire of the National league, is the selector of the arbitrators of the league, having signed a three-year contract. Since Hank O'Day retired to manage the Cincinnati Reds, Klem has become dean of the National league's umpires. Klem began his big league career in 1906.

It will require more than \$75,000 to send the American team to Sweden to participate in the Olympic games. It is a question whether this amount can be raised. In case it is not, then the American team will have to be reduced in numbers.

Jack Grim, the old Brooklyn player, will manage the Newark, O., State league team next season. Jack has had quite a lot of experience in the minor leagues since leaving the big show.

Elmer Stricklett, softball originator, denies that he has signed a contract to play with Moring's outlaws next year. This denial is contained in a letter to Manager Hogan of the Vernon team, who had planned to use him in 1929. Stricklett says he is out of baseball and means to devote his time to business.

The Columbus Association of Professional baseball clubs has been incorporated under the laws of Illinois. The papers were recorded in the office of Secretary of State Rose. The corporation is for the purpose of "promotion of the game of baseball." The incorporators are John T. Powers, William C. Nison and A. F. Gardner.

Umpire Glenvallo, according to circuit news, has applied for a job in the Central for the coming season as has Charles Lucas, of Zanesville, and Jesse Gohler, former Ohio State umpire.

FATHER TIME IS AFTER REULBACH

New York, Feb. 2.—Judging from the fact that every club in the National league has waived on "Big Ed" Reulbach, it is only a question of time when the one time great pitcher will be found in some minor league. In fact it would seem as if his doom was sounded and that the Chicago Cubs had decided to do without his services this year.

The passing of Reulbach is cause for regret, if such turns out to be the case. He hung on the ragged edge most of last season because of the fact that he was slow to get into condition and had lost much of his effectiveness, but when waivers were asked last summer the feeling was general that Frank Chance took this method to rouse him to better things. At that time two or three clubs refused to waive, but now the Cubs are free to do as they please with the man who only three years ago was one of their strongest assets.

Reulbach has been a remarkable pitcher. In 1906, 1907 and 1908 he headed the list of National league twirlers, with the following record, of which even a Mutt could be proud.

1906—Won 19, lost 4, per cent, 526.
1907—Won 17, lost 4, per cent, 510.
1908—Won 24, lost 7, per cent, 774.

The winning of sixty games while losing only 15 in three years is quite enough to set the seal of the greatness. In 1909 he won no less than 14 straight games, five of which were shutouts. In five other games he held his opponents to one run. There was no limit, either, to his stamina when at his best, as he is credited with winning two of the longest games on record for the Cubs. One of these went 21 innings against Philadelphia, while the other went 18 innings against St. Louis.

The Brooklyn fans, or at least some of them, remember Reulbach as the pitcher who shut out the Superbas in two games in one afternoon. He accomplished this remarkable performance on September 26, 1908, and in the full 18 innings he gave only two bases on balls and held Brooklyn to eight hits and one run.

Reulbach is only 29 years old, and is rather surprising under the circumstances that some club in the National league was unwilling to take a chance for the waiver price of \$1,500.

STERZER IS TURNED DOWN.

Buck Sterzer has been turned down on his claim of one-third of the money for which he was drafted by St. Louis. He had a contract calling for a third of the money if he was sold, but it did not apply to a draft.

Read the Patterson-Fletcher Grant Half-Price Sale "Ad" on page five. Sale begins tomorrow morning at eight o'clock.

Both the Active Turners and the Keklongas are on edge for their basketball battle at Turner hall on West Superior street tonight and a hard battle is promised. The Turners have a head schedule ahead of them and they are working hard to hold their own. The clubs will line up as follows:

Active Turners—Wetsbeck and Hickman, forwards; Weberuss, center; Barth and Zelt, guards.

Keklongas—Longhals and Offerte, forwards; Kocks, center; Becker and Kiep, guards.

HENDRICKS HAS CHANCE

Jack Hendricks will become a Western league magnate as well as manager if he accepts the offer which James C. McGill, owner of the Denver club, will make. The Denver club owner has decided to offer his manager a one-fourth interest in the Grizzlies at a figure for which no outsider probably could obtain it, in partial recognition of Hendricks' success with the team in the past and as an inducement to continued effort in quest of pennants.

THIRTY MEN TO
GET AN INFELD

Comiskey Has Tried Out as
Many and Problem is
Unsolved.

OLD FELLOWS GONE

Cleveland, O., Feb. 2.—When the White Sox won the pennant and also the world championship in 1906, Charles Comiskey rather thought he had a corking good infield with Jesus Domingue on first, Isbell on second, George Davis at short and Lee Tannehill on third. Davis and Isbell, of course, were veterans, but Comiskey rather opined that they would be good for several seasons to come.

But Charles Comiskey has spent many thousands of dollars and tried out scores of recruits, in an effort to replace those stars of 1906, but, nevertheless, he has been unsuccessful except in one instance. He has secured Harry Lord for third base, but he got him through a trade and did not develop him. Rolo Zelder comes the nearest of all the others to approaching the class of the infield that brought Comiskey a world's gonfalon.

Since 1906 Comiskey has tried out ten men at first, eight at second, seven at short and

SHOP AND RAILROAD NEWS

TWO MORE MEN ARE PROMOTED

E. E. McCrea and G. R. Barry Moved Up in M. W. Ranks.

C. L. GAYLORD FALLS IN TURNABLE PIT

Receives Some Bad Cuts on Face and Head—
Shop News.

Following the announcement yesterday of the transfer of Division Engineer F. M. Graham to Chicago and Division Engineer Guy Scott from Toledo to Fort Wayne, mentioned by The Sentinel yesterday, comes the announcement that E. E. McCrea, division engineer on the Zanesville division, has been transferred to Toledo to succeed Mr. Scott and that George R. Barry, assistant engineer of the Indianapolis division, has been promoted to division engineer at Zanesville. This probably completes the changes that arose out of the resignation last New Year's day of J. W. Barrie, of the Chicago division. Messrs. McCrea and Barry, being Southwest system men, are not known here except to the officials and a few of the motive power and maintenance of way men.

INTERESTED IN MOVEMENT.

Railways Take Hand in Eliminating Smoke.

The movement looking towards the abolishment of the smoke nuisance in Fort Wayne, started some weeks ago, has a strong advocate in railway circles. In fact, that question already figures prominently in the lectures delivered each afternoon by O. E. Maxwell, assistant road foreman of engines of the Pennsylvania, before classes composed of passenger engineers who are being instructed in the construction and handling of the new engines, which are equipped with superheaters and mechanical stokers. These "schools of instruction" are held in Mr. Colney's office, at the round house, and great interest is being taken in them. They will be followed soon by similar instructions to the freight engineers. Concerning the abatement of smoke, one of the department officials said that it was not an impossibility. "An inexperienced person can go into the furnace room of a church or other big building," he said, "and pile in a lot of coal which will produce a volume of smoke that will hang like a cloud over the entire neighborhood. One better informed will feed the furnace more slowly, putting in small quantities of coal, and the result will be better combustion and consequently less smoke." Continuing, he said: "The same rule applies to a locomotive. Properly fed the fire will consume the coal without making any smoke to speak of and the efficiency of the locomotive will be increased with a much less consumption of fuel. We propose to teach our engineers and firemen, if they have not already learned it, how to fire without waste of fuel and dense volumes of smoke. We believe the movement to abolish the smoke nuisance is a good thing and we will push it along."

FELL IN TURNABLE PIT.

C. L. Gaylord the Victim of an Accident.

C. L. Gaylord, a head light cleaner at the Pennsylvania round house, sustained most painful injuries last night which will put him out of service for awhile. Blinded by steam from a locomotive, he walked into the turntable pit and was cut above the left eye, on the nose and cheek and received numerous bruises on the body and limbs.

MAY DELIVER LECTURE.

W. A. Buckbee, representative of the Locomotive Superheater company, is in the city in the interest of the company. Super heaters were recently introduced and only a few engines heretofore have them. They are said to be a good thing and will in time be in common use. Mr. Buckbee has been asked to deliver a lecture before engineers and other railway men on this subject and it is likely he will consent. Schools are held daily now at the Pennsylvania road foreman's office to study this feature of locomotive construction and use. There are seven superheater engines in use on the Western division of the Pennsylvania.

COMING HOME TODAY.

Engineer F. E. Nikoali, the Grand Rapids and Indiana employee injured in the Cooper wreck, will be home this evening, his injuries being of minor character. Engineer J. E. Randall, who sustained greater injuries, will probably have to remain in the hospital at Kalamazoo a week or more, though he is not in a serious condition. The engines damaged in the wreck Nos. 7438 and 9071, which belong to the Pennsylvania, will come to the Fort Wayne shops for repairs. The G. R. & I. motive power department reports the damage not very great, considering the force of the collision.

MERIT AND DEMERIT MARKS.

Supt. J. C. Sullivan, of the Wabash, has issued his report covering the month of January of the merit and demerit marks given employees in the transportation department of the road. Nineteen men were given clear records and the following credit marks for various reasons: Three engineers, eight conductors, five brakemen, six switchmen, four operators and one agent. A brakeman, a switchman and an operator were dismissed from the service for violating rules and demerit marks were placed against nine engineers, three firemen, nine conductors, eight brakemen, two switchmen, three clerks, two callers, one agent and two operators.

MUST BE STEAM ROAD.

The Cincinnati Enquirer says: "Judge S. E. Cook has announced that the upset price of \$800,000 for the Chicago, Bluffton and Cincinnati railroad will stand, and has refused to sell the road unless it shall remain a steam road. It is thought that this announcement will prevent the merger of the road with the Marion, Bluffton and Eastern and the Bluffton, Geneva and Colina Traction companies. It was proposed to electrify the line if it was abolished by the traction interests. The Bluffton road has been offered for sale on several occasions, but no bidders appeared."

REMAINS OF FIREMAN SAMS.

The remains of Fireman Howard W. Sams, who lost his life in the G. R. & I. accident at Coopers, have been brought to the city and are now at the residence of the bereaved parents, Mr. and Mrs. William Sams, 94 Fecker avenue, from whence the funeral will be held at 1:30 o'clock Saturday afternoon and from St. Paul's M. E. church at 2 o'clock. Interment will be in the Old Fellows cemetery at New Haven.

CAPT. H. M. DIEHL RETURNS.

Capt. H. M. Diehl, air brake instructor and special man in the Pennsylvania motive power department, has returned from Atlantic City, where he took part in some interesting air brake tests. Captain Diehl expects to have his air brake instruction car out of the shops next week. It has been in there for general repairs.

BRAKEMAN ROCHE INJURED.

At 10 o'clock last night, while Yard Brakeman G. J. Roche was at work in the Pennsylvania yards, he sustained painful injuries to his head and was sent down to the office of Dr. A. H. Macbeth to receive surgical attention. Bruises and cuts, of not a very serious character, were the extent of his injuries.

OFF FOR FLORIDA.

John T. Leach, foreman of the Pennsylvania erecting shop, who has been ailing for several weeks, left today for Florida, where he will spend the balance of February. He is going via Harrisburg and may stop over in that city a day or two. During Mr. Leach's absence Fred J. Stahl will have charge of the erecting shop.

INSPECTING 400 CAR WHEELS.

Fred Singleton, of Columbus, Ohio, was here today to inspect 300 or 400 car wheels at the Bass foundry, which were made for the Hocking Valley railroad. Mr. Singleton makes frequent visits of this kind to Fort Wayne.

NEEDS SOME LABORERS.

"Just say that I am in need of five or six big, husky fellows to work as helpers and laborers," was the reply of Foreman G. A. Szink, of the Pennsylvania blacksmith shop this morning concerning the inquiry for news. The smith shop is very busy.

STOREKEEPER'S MEETING.

The monthly gathering of Pennsylvania division storekeepers will be held here next week, commencing Monday and continuing until and including Wednesday. Seven division points will be represented at the meeting.

INDUSTRIAL NOTES.

Tony Rosin has recovered from an injury and resumed work at the Pennsylvania erecting shop. Walter Elk, Pennsylvania engine dispatcher, is sick and off duty. He was taken ill Wednesday night. Machinist John O. Bryant resumed work at the Pennsylvania shops this morning. He had been sick a week. C. P. Rippe, F. W. Jesse and O. J. Farnan, Pennsylvania shopmen, are sick and off duty. Ed Hurst has gone to the country to spend the day. J. L. Owens, representing the Owens company, of Minneapolis, manufacturers of grain and flax separators, was a business caller in the city today. G. B. Swaine, tool inspector at the Pennsylvania round house, has resigned to take a position with a manufacturing establishment in Grand Rapids.

Ralph Wood, who recently resigned a position at the Fort Wayne Electric works, will go to Iowa to assist in building a bridge over the Mississippi river.

L. E. Bittenger went to Toledo this morning on business for the Pennsylvania motive power department in connection with the Central motive power department.

E. K. Seidel, boiler-makers' helper, has resigned a position at the Pennsylvania shops and will go to Chicago to work. He is a German and has been here only a few months.

Machinist Wenta Gabriel, of the Wabash shops, had his head bruised and the scalp slightly cut this morning when a block of wood fell from the top of a locomotive and struck him while he was at work.

To meet the increasing business demands at the Pennsylvania freight house Foreman Chris Kees is adding to the force from day to day. Yesterday he hired H. Logan, E. B. Connelly and L. F. Davis.

Charles D. Grush, who was formerly employed by the Fort Wayne and Northern Indiana Traction company, has taken employment at the Pennsylvania power house. Nick Deness is a new laborer in the Smith shop.

Jerome Wellman has returned from a pleasure and business trip to Wabash and some of the towns thereabouts. Mr. Wellman is president of Carpenters' and Joiners' union, No. 232. He was accompanied on the trip by Mrs. Wellman. The first railroad depot building built west of the Alleghenies, now is being razed to make way for a modern business block. The building was built 85 years ago by the old Mad River and Lake Erie railroad at Sandusky, but for 30 years has been used by the Gilcher & Schuch Lumber company.

Belleuve Gazette: The freight congestion which has been experienced on the Nickel Plate for several weeks and which began to assume serious proportions, is being relieved, the task of moving the first of the stored cars being taken up today. Sidings on every division of the road have been filled with "dead" freight while all available motive power has been in service moving the heavy rush of "fast" freight.

KILLED WHILE COASTING.

New Jersey Lad's Sled Dashed in Front of Automobile.

Elizabeth, N. J., Feb. 2.—Frank Denman, aged 9, died today from injuries received yesterday when he was run down by an automobile while coasting on his sled. The automobile was driven by George Robertson, the automobile racing driver, and in the car was Burton S. Brown, a New York newspaper man. The automobile had just turned the corner when Denman, on his sled, shot suddenly from under a fence which runs along the road and passed in front of the machine. Robertson was not able to stop the car in time to prevent the accident.

FIREMEN IN PERIL.

Six Overcome When Gas Meter Explodes in New York Cellar.

New York, Feb. 2.—Deputy Fire Chief Binns, Battalion Chiefs Marshall and Knas and three firemen were overcome by gas while fighting flames in the sub-cellar of a building, occupied by the Stearns-Zeitung on Williams street early today. A gas meter exploded and the cellar was quickly filled with gas fumes. The three chiefs were the first to fall from the effects of the gas and they were carried unconscious to the street. Three other firemen were also overcome but were rescued. The firemen recovered from the effects of the gas. The fire was extinguished after an hour's work. The damage was small.

A SPLENDID BUSINESS MAN AND LOYAL DEMOCRAT FOR SHERIFF.

JOSEPH F. GETZ

The Sentinel announces today the candidacy of Mr. Joseph F. Getz, whose likeness appears above, for the democratic nomination for sheriff of Allen county. We believe the party is most fortunate when a substantial and successful business man like Mr. Getz will permit the announcement of his name as a candidate for office. Success in private business cannot be given too much consideration in the selection of candidates for any office. Mr. Getz has been an ardent democrat all his life, and his loyalty to the party was never better shown than in 1906, when he accepted the nomination for sheriff and fought one of the most aggressive campaigns in the history of the county, in the face of almost certain defeat, and when none other of sufficient calibre could be found to make the fight. This is but a single

instance of the splendid party loyalty which has at all times marked the conduct of Mr. Getz, and which his host of friends believe entitle him to strong recognition and support at the nominating primary. Mr. Getz was born and reared upon a farm, and has been a resident of the county for thirty-two years, the last twenty of which he has lived in the city of Fort Wayne, and enjoys a most extensive acquaintance throughout the city and county. As a candidate Mr. Getz presents an ideal personality—of the highest honor and integrity, active, energetic, courageous, manly, and of the most happy and genial temperament. His friends are limited only by his acquaintance. It is generally conceded that his candidacy carries the most flattering prospects of success.

KNIGHTS WILL GO TO PERU.

Will assist in Initiatory Work on February 18.

Fort Wayne council, Knights of Columbus, will go to Peru on Feb. 18 to participate in the initiation of a class of candidates. The Fort Wayne Knights will exemplify the third degree, and arrangements will be made for a special car for the trip.

SEES THE WORLD; SEEKS A BETTER

Former "Small Town" Girl
Kills Herself in a Lodg-
ing House.

MEMENTOES OF HOME

Chicago, Feb. 9.—Parkdale, Ark., will be interested to learn that Minnie Starbuck, formerly of that city, was found dead yesterday morning in the gas filled room of a cheap lodging house at 710 North Clark street.

Minnie left Parkdale when she was 18 years old, a proceeding unforgivable in view of the fact that she emigrated for no apparent reason other than that she did not like Parkdale. Her father had a steady job. Her mother was a hard working, respectable woman. Several of Parkdale's most promising young men, it was said, had offered to take Minnie into their respective hearts and homes.

Yet she departed. Parkdale murmured baneful predictions and watched her course with eyes which already saw the end. It was plain that Minnie had a case of "swelled head." She "was too big for her folks." Parkdale had been girls like that before.

Tries Love; Husband Deserts.

Minnie landed first in Shreveport, La. Parkdale was right; she was tired of Arkansas and wanted to see the world. She hunted for some time and, being pretty, finally got a job as a waitress. Minnie worked in Shreveport for two years, then she married. Presently her husband became tired of matrimony and departed, leaving Minnie a two-month-old baby and a new sense of life's responsibilities. The ordinary girl probably would have gone back to Parkdale. Minnie didn't. She took care of herself and the baby until a year later it died. Minnie came to Chicago. It received her coldly. Parkdale could not have been colder.

"Home Town" Forgets Girl.

Minnie's letters home became more and more infrequent. Her mother knew less and less of her daughter's life. Time slowly effaced Parkdale's memory of the expatriate. Minnie was forgotten.

Her body was found yesterday morning by Joseph Steiner, owner of the lodging house in which she had lived since Wednesday. The gas jet was open and a chair blocked the door. Search of old addresses revealed that until four months ago Minnie had lived at Mrs. George Complin at 607 North Clark street. The man, it developed, had gone elsewhere, leaving an unpaid room bill. In recognition thereof Mrs. A. Jungerman, proprietor of the rooming house, had defined Minnie's trunk.

It was an old trunk, much worn and entirely out of fashion. In the upper tray were some letters from Minnie's mother. They were clumsily spelt and most prosaic in theme.

Mother Alone Remains Faithful.

One of the letters read:
"I wish you would tell me what you are working at. People ask me and I don't know. I would like to have you write me a letter, too, if you ain't too busy. It has been a long time since I got one. Well, be a good girl and please write."

With the letters were some souvenir post cards. There were fifty of them, unaddressed, unstamped and soiled with handling. On the reverse sides were photographs of various things—a church, a hillside, a school house, a residence, a sawmill, a street. Each bore the same caption, "Street Scene from Parkdale, Ark."

THE WISE WAY OF LIVING.

A Brilliant Course of Free Lectures at Elks' Temple Auditorium Next Week by Doctor Wm. Windsor, of Boston.

Commencing Sunday night and continuing three nights, William Windsor, LL. B., Ph. D., president of the Boston College of Vitosophy, and the world's most eminent phrenologist, will lecture on the new science of character known as "Vitosophy," which is now attracting world wide attention. Vitosophy proves that it is unnecessary for any one to be either poor, sick, weak or unhappy and insures happiness to all who practice it by putting each person in his right vocation, environment, climate and companionship. The following clipping is from the Bloomington, Illinois, Daily Bulletin:

"The gentleman modestly lecturing at the Coliseum the past week is one of the most noted characters in America. The gentleman is Dr. William Windsor, and he is the most expert phrenologist in Europe or America. He has done more good than the greatest philanthropist, and few dergymen have more to their credit. He has directed thousands of young men in the path of prominence, who otherwise would have lived a mis-spent life. He has told them that for which they are best adapted. He made lawyers out of youths who were bent on machinery, and made mechanics out of misguided young men

who were urged to become lawyers. Many a doctor now enjoys a lucrative practice owes his success to his advice. Every person is adapted for something, but few, unaided, hit upon the vocation to which nature inclines them, and without which there is no enjoyment or advancement in life. Dr. Windsor, by life-long study and experience, tells all this at a glance."

Doctor Windsor will lecture on "Matrimony" Sunday night, closing with a beautiful tableau of seven young ladies and seven young gentlemen selecting life companions. Tuesday night he will lecture on "How to Become Rich." Other lectures will be announced and the doctor will have consultation rooms at the Anthony hotel.

BOARD CONFIRMS THE RESOLUTION

No Objection Made to Ele-
vation at Fairfield
Avenue.

GOES TO THE COUNCIL

No objection was offered today to the confirmation of the resolution, plans and estimates for the elevation of the Wabash tracks at Fairfield avenue and all were confirmed at a meeting of the board of public works, held at 10 o'clock today.

Ernest H. and Herman L. Dolf, of the Rolf Coal company, were present to make some inquiry as to whether or not their property would be assessed for the retaining walls and sidewalks and when they were told it would not be they were satisfied.

Estimates show that the city's portion of the cost will be \$10,379.22 and the company will be assessed \$21,137.07 and none of the Wabash officials was present as the work is being done under an agreement reached when the freight house question was settled. The matter will be submitted to the city council for approval and when this is obtained bids will be asked for.

No Solution of Problem.

Members of the board said today they had no solution of the garbage collection problem, but that they would be willing to meet the council committee in charge of the matter. This meeting is scheduled for Monday of next week.

At that time the proposition to divide the city into districts again and have a separate collector in each will be considered. These collectors are to work directly under city supervision and the only question is whether or not the city is prepared to make the investment that will be necessitated.

It has been decided that the C. S. Bash contract is impossible for several reasons, the first is that the city cannot make a contract for more than a year and the second is that the price of \$7,925 for the first five years and \$9,450 for the next five is exorbitant.

City Hall Notes.
At the meeting of the board of public works last night assessment rolls for the ornamental light system were confirmed without objection, a resolution was approved for the relocation of Tennessee avenue, the resolution for opening Fourth street to Spy Run was held for investigation and plans were ordered for cement walks on both sides of Elizabeth street from Spy Run avenue to Clinton street.

Instructions have been prepared and will be sent to the Pennsylvania company of the hearing on the separation of grades at Union and College streets.

Decatur cars were ordered to be stopped at Douglas avenue instead of Lewis street, as there are better facilities for passengers at this point.

Before any action is taken by the council committee on contracts and franchises on the application by the Fort Wayne and Northern Indiana for switches for the new terminals and the pay-as-you-enter, cars some additional service will be asked.

FRUIT GROWERS HERE TOMORROW

Fine List of Speakers on
the Program at the
Court House.
PUBLIC IS INVITED

Initial steps in the effort to bring fruit growing and orchard culture in Allen county up to the highest possible standard will be taken at a meeting of the Allen County Horticultural society to be held in the court house assembly room Saturday afternoon at 1 o'clock, and the program presents an inviting array of speakers.

Heading the list is Prof. C. G. Woodbury, of the Purdue experiment station at Lafayette, who will talk on "Orchard Culture." Others on the program include Charles S. Bash, A. E. Carroll, George V. Kell and T. E. Ellison, and the invitation is extended to every fruit grower, farmer and citizen to attend the meeting.

Some recent accomplishments in Allen county orchards have awakened fruit growers to the splendid possibilities of this section, and the present effort is to be of assistance to those who would bring their orchards to the highest state of efficiency. It is probable that officers will be chosen and a permanent organization of fruit growers organized at the meeting tomorrow.

Use Crisco and see how much better flavor your pie crust will have.

Has your pie crust the flavor you like?

Crisco pastry has a flavor which is impossible with any other shortening. It is decidedly superior in flavor to pastry made with lard.

Women who have thought their pastry could not be improved, have used Crisco and have found what a difference it makes. You can get tender crust with a regularity impossible with lard, or lard and butter.

In any dessert which your family enjoys as much as pie, you will welcome a product which will make it more delicious. Purchase a package of Crisco to-day and make the best pie crust you have ever eaten.

"OLD ALIBI" DEAD DOWN IN MONROE

Scheme No Longer of Value as Protector of Whitecaps. ONCE WORKED WELL

Bloomington, Ind., Feb. 9.—Old Alibi, the stalking horse which for forty years the whitecappers of Monroe county have used to protect them from the long arm of the law, is dead as far as its legal value is concerned.

The end of Old Alibi came when the jury in the Harvey McFarland white-capping case returned a verdict finding Silas Adams guilty of taking part in the whipping of McFarland last May in Polk township. The jury was out only twenty-five minutes and took only two ballots, the first resulting in a vote of 11 to 1 for conviction and the second in the verdict of "guilty." So ended Old Alibi.

"Old Alibi" Used to Save Them. The term, "old alibi," has been handed down in Monroe county from the first whitecap organization, which was formed more than forty years ago. When a whitecapper was arrested or charged with his crime the saying was "Old Alibi will save him," meaning that members of the clan would swear that at the time the whitecapping took place the particular "capper" who had been caught by the law was miles away from the scene of the raid. In every whitecap case ever tried in Monroe county Old Alibi was used and his service was long and faithful. Old Alibi's first failure came last week, when Tobias Snoddy was convicted of being one of the McFarland whitecaps and the conviction of Adams was Old Alibi's finish.

Surprise for the Defense. Adams' attorneys put witnesses on the stand who appeared to prove a complete alibi for the defendant, but the jury, remembering other cases, did not

seem to take any stock in the testimony of the witnesses. To Adams and his friends the quick verdict of guilty came as a surprise. It was approved, however, by all good citizens and the faculty of Indiana university, three members of which were on the jury.

When the jury was ready to report, Adams entered the courtroom with his sister, Miss Lizzie, and a brother, Joseph. When the verdict was read Adams did not display the least emotion, but the sister broke down and hurried away from the courthouse. Adams was taken in charge by Sheriff Brown and spent the night in jail. His bond, ending an appeal, will probably be placed at \$3,000, the same as in the Snoddy case.

No other whitecap cases will be tried till the next term of court. Read the Patterson-Fletcher Great Half-Price Sale "Ad" on page five. Sale begins tomorrow morning at eight o'clock.

LEARNS HUSBAND IS HEIR.

Mrs. Frederic Crandell Hears News as She Quits Prison.

New York, Feb. 9.—Mrs. Frederic Crandell, nee McManus, came over to New York today from Blackwell's island and learned for the first time that her husband was an heir of the late Edwin Hawley and a prospective millionaire. Since January 20 last she had been an inmate of the workhouse, sentenced there for "disorderly conduct and malicious mischief," the outcome of a tenement house row. The children of the pair have been at Chatham awaiting their mother's release, and it is understood that she will join them there.

Young Crandell once was one of the late railroad millionaire's favorite nephews, but they quarreled in 1906 when Mr. Hawley learned of Crandell's attention to Miss McManus, then a telegraph operator in the offices of the Southern Pacific railways where he was employed. Since Hawley died intestate Crandell will receive a share of the estate amounting, it is said, to more than \$2,000,000.

Astounding Claims Made for Vitosophy

New System of Learning, Which Its Author Claims Banishes Divorce, Cures Poverty and Removes Disease.

FREE LECTURES AT ELKS' TEMPLE AUDITORIUM COMMENCING SUNDAY NIGHT.

If the claims made by Dr. William Windsor, of Boston, Mass., can be substantiated, Fort Wayne is on the eve of a moral and financial upheaval which will rebound to the benefit of many of the citizens during the coming week. All of which arise from the fact that Doctor Windsor is announced to give three free lectures at the Elks' Temple auditorium commencing Sunday night with a lecture on "Marriage," the most absorbing topic in human interest, followed by others scarcely less important on "How to Become Rich" and "How to Be Healthy."

Dr. Windsor is not a physician, as might be inferred from his title. He has no medicine to prescribe, sell or administer. He is a phenologist, a student of human nature and a lawyer and orator of international reputation. He is president of the Boston College of Vitosophy, and has received the degree of Doctor of Philosophy from two universities in recognition of his services benefiting the human race.

He is a member of the bar of the United States supreme court and for his work as a criminologist received from the court of appeals of Texas the highest compliment ever paid to a practicing lawyer by a court of last resort.

In his lectures at the Elks' Temple auditorium Dr. Windsor will expound the new system of learning, entitled "Vitosophy," of which he is the originator, which inculcates the highest form of morality and proves that it is unnecessary to be either poor, sick or unhappy.

According to the new system of Vitosophy as perfected by Dr. Windsor, the phenological developments of each person should be determined by accurate measurements with the phenometer, which discloses the actual formation of the brain, from which the localization of brain power can be accurately deduced, the talents he will manifest, the business he should follow, besides many other facts of the greatest importance in education and development. Fortunes Made by Following Vitosophical Principles.

In his lecture Tuesday night Dr. Windsor will give the names and addresses of many persons who have become independently wealthy by following his principles. Dr. Windsor will have parlors and consultation room at the Anthony hotel during his stay in Fort Wayne, and many may be consulted between the hours of 10 a. m. and 7 p. m.

TO OUR FRIENDS, OUR FRIENDS' FRIENDS AND THEIR FRIENDS.

To all of you the German-American sends greeting: Our new South Branch in our new building will open for business bright and early Saturday morning, February 10th. We solicit your presence and your business on our opening day.

To mark our opening, all deposits made in the Savings Department the first week will date back and draw interest at the rate of 4 per cent. from February 1st.

The erection of this new building and the opening of this South Branch is evidence of the German-American's desire to give the best possible service to its patrons and the public. We aim to be useful rather than ornamental, to be a help to the community rather than a burden.

In accordance with this idea we have erected a creditable and substantial building and take pleasure in extending our unequalled facilities to the important and rapidly growing south side interests. We trust that the South Branch will prove a great neighborhood accommodation and receive the quick and hearty support to which our safe and progressive methods of doing business entitle it.

We are glad to announce that our judgment regarding the erection of our new building has already been verified. It is a splendid asset, typical of our institution; sane, sensible, safe and substantial. It could be sold in twenty-four hours for ten thousand dollars more than it has cost us. Everything about it is convenient, modern and first-class. Nothing is showy and extravagant. All these portions not reserved for our own use have already been profitably rented to good and responsible tenants.

The German-American seeks to combine the thrift and conservatism of the German nation with the push and energy of the American people. The same rule of industry and economy that has marked our every step will continue to prevail unto the end.

We ask you to aid us in making the opening of our South Branch an important event in Fort Wayne's south side interests.

DISEASED MEAT SHOWN IN COURT

Hog's Head Sold for Food Shows Plainly the Presence of Sores.

LEIKAUFS ASK TIME

There was offered in evidence in the city court today a hog's head that had been sold by the Leikauf Packing company to Daniel Schmid, of 421 Putnam street, which showed the presence of a number of abscesses that were plainly to be seen at a glance and after the state had submitted its testimony time was asked by the Leikaufs to secure a witness. The trial will be resumed tomorrow.

A physician testified that Mr. Schmid was ill and that his symptoms were those that might ordinarily be expected from eating diseased meat. It is claimed by the Leikaufs that the head was purchased by them from a farmer and he is to be summoned to appear tomorrow.

The head was placed in the hands of Dr. George Kille and he preserved it to offer in evidence and he testified that in his opinion the animal was not fit for food when it was slaughtered.

George Young, an insurance man arrested for drunkenness at the instance of his son, was allowed to go with a warning.

Frank Gibson, who insisted on riding out of town on the pilot of a tractor, was found guilty of intoxication and allowed to go.

Robert Courtney, who was in court yesterday for drunkenness, was back today and he drew a fine of \$1 and costs.

MARINE MINSTRELS SCORE HIT

Over Three Hundred People Witness Performance of Local Amateurs.

The Rouen & Rover Marine minstrels, given under the auspices of the Modern Woodmen of America, camp No. 3172, and the Royal Neighbors of America, camp No. 758, at Odell hall Thursday evening, scored a big hit with the three hundred people who witnessed the performance of the amateurs, and owing to repeated requests another performance of the show may be given.

The Highland four, a local quartet, was one of the chief attractions, and Rouen and Rover, in singing, talking and dancing came in for their share of applause, while the end men kept the audience in an uproar. The evening's performance closed with a skit entitled "What Happened to Smith," in which the entire company participated.

E. C. RURODE CONFINED TO HOME.

E. C. Rurode, president of the Rurode Dry Goods company, is confined to his home on West Berry street as the result of a fall sustained a few days ago. Members of the family say that there is nothing serious in his condition.

Here is a remedy that will cure your cold. Why waste time and money experimenting when you can get a preparation that has won a world-wide reputation by its cures of this disease and can always be depended upon? It is known everywhere as Chamberlain's Cough Remedy, and is a medicine of real merit. For sale by all dealers.

As a possible substitute for cotton, German textile experts are experimenting with the fiber of the Asiatic silk cotton tree.

SAFE REMEDY ENDS CATARRH MISERIES

Gives Instant Relief, Cures and Prevents Catarrh and Cold in the Head.

The quickest, best and safest way to cure catarrh or a cold in the head is by using a remedy that will "touch the spot" and do its work quickly without leaving any bad effects. Ely's Cream Balm, which is applied to the nostrils or rubbed on the throat or chest gets right at the root of the trouble and instantly relieves even the worst case of catarrh or cold. A few minutes after its application you can feel a loosening up in the head, the pain and soreness are gone, the sense of taste, smell and hearing comes back and you feel like a different person.

Ely's Cream Balm cleanses, heals and strengthens inflamed membranes, takes away that stuffed up feeling and dull pain in the head, relieves the throat soreness and stops the nasty discharge which is the cause of the disgusting hacking, spitting, blowing of the nose, and foul breath. May fever victims who are made miserable by fits of sneezing, coughing and wheezing get instant and permanent relief by the use of this simple remedy.

Don't suffer another minute. Ely's Cream Balm will relieve you immediately, and a 50 cent bottle will more than likely work a complete cure. All druggists sell it. Meyer Bros. Co. Four

BRIGHT'S DISEASE

Late estimates on the percentage of recoveries under the new emollient treatment for Bright's Disease are as follows: Where patient is much weakened and crises may be expected in from five to ten days, probably not more than 10% to 20% recover. Where physicians aid with efforts to restrain fatal symptoms this percentage is increased. In cases where patients have from thirty to sixty days of life the efficiency is very much higher. Where patients do not wait until bed-ridden probably three-fourths yield. And in cases that take the new emollient treatment on the appearance of the disease nearly nine out of ten respond. Albumen casts and dropsy do not prevent recovery. The point is that the renal inflammation should be attacked before the heart and physical system are broken down.

The new emollient treatment is known as Fulton's Renal Compound. It can be had in Fort Wayne at the D. & N. Pharmacy, 224 Calhoun St.

We desire every patient to write us who is not noting the usual improvement by the third week. Literature mailed free. Jno. J. Fulton Co., 642 Battery St., San Francisco, Cal. We have correspondence with physicians who have obstinate cases.

WHITE CAUSES A STIR IN COURT

(Continued from Page One.)

the day, according to attorneys for the receivers of the Niles bank, which is suing for the insurance.

Exchange of Epithets.

White left the court room at the noon recess and in the corridor of the building encountered Luke Wood, receiver of the bank which is suing the insurance company. "You fraud," White shouted at Wood. "You—shape of a man."

Wood looked after the claimant and remarked, "That's no more Kimmel than I am."

Then White encountered an attorney for Wood, who gave the claimant a searching glance, the claimant exclaiming, "Haven't you seen me enough?—you, haven't you any manners? I'm not going to stay here any longer."

Rather than wait for an elevator White hastened down the stairs. Prior to leaving the court room White said in conversation that his mother and sister refused to own him because of the influence of his uncle, Charles Johnson. He said he spent a month in Niles at the time he was supposed to be "dead" and worked on books of his uncle's bank at night and found out things which Johnson does not want known. White refused to say when he made the secret trip to Niles or how he gained access to the bank books.

APPEALS TO BUSINESS MEN.

Moose Committee Invites Aid in Locating Industrial School.

Committees of the Loyal Order of Moose, in session at the lodge rooms last evening, decided to appeal to Fort Wayne business men to aid them in the effort to secure the location of the big industrial school of the order in this city.

Four hundred acres of land are needed, located preferably along one of the rivers and the committee believes that if Fort Wayne will pledge this site there will be no difficulty in securing the school, despite the fact that a score of other cities are making strenuous efforts to secure it.

Nature's Hair Restorer

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Restores Gray Hair to Natural Color

Sulphur is a Natural Element of the Hair

When there is not a sufficient amount of sulphur in the hair, it loses its life, color and strength, turns gray, and falls out. There are many forms of sulphur, but only one kind that is suitable for treatment of the hair and scalp, and that is the kind used in preparing WYETH'S SAGE AND SULPHUR HAIR REMEDY.

We Have the Secret, and We Give You the Benefit of

It at an Exceedingly Low Price

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair, and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

ONCE PRINCESS; DIES FORGOTTEN

Name Marguerite Tounens Recalls Romance of

Butcher Boy.

MADE HIMSELF KING

Paris, Feb. 9.—A Frenchman, while discussing little known real life romances of his countrymen, suddenly turned to his newspaper, ran rapidly over the headlines and pointed to this item: "Marguerite Tounens has died in a hospital in Copenhagen. He sighed, then said to his visitor: 'Few Frenchmen remember that name—Tounens—yet it was the name of a French butcher boy who became a king fifty years ago and Marguerite Tounens was his daughter.'"

And this is the romantic story of adventure which he then told: "He was the king of Aracania. The newspapers of Paris used his title to make jokes. To make one laugh, you simply spoke 'King Orelie'—poor Orelie. But he was a real man, his kingdom was real, and the land perhaps would be French territory now if the French had taken him seriously."

He was Explorer at Heart. "Antoine Tounens was the son of a butcher of Perigueux. He was ambitious, his father gave him a good education, he became a lawyer and did pretty well. The spirit of adventure took him to Paris. But he longed to explore distant countries. And one day he and a few friends pooled the little money they possessed, and after some adventure, landed in Aracania, a strip of country touching Patagonia."

"They soon acquired great influence there. The country was rich in metals and in almost everything. It is, you know, a part of Argentina now. The people there lived easily and simply, had the Latin longing for development, and the Latin laziness which prevented initiative."

"Antoine Tounens soon showed them what initiative was worth, and before long was the great man of the country. Being a Frenchman, he was not content with untitled greatness. He persuaded the people that Aracania was big enough and rich enough to become a kingdom, drew up a constitution, and became its king, the king of Aracania, King Orelie Antoine I. Until then nobody had minded what he did with Aracania. But when Aracania became a kingdom, and the government of Chile heard that King Orelie was thinking of buying or building a fleet, there was trouble."

Variety Cost Him Kingdom. "A Chilean army marched across the mountains. The Aracanian army was a half-bred army and there was very little fighting. The Chileans invited King Orelie to meet them and talk matters over."

"The letters addressed him as king and as royal majesty. The son of the butcher of Perigueux was flattered. He fell into the trap which had been set for his vanity, and Aracania was no longer a kingdom."

"Antoine Tounens was Antoine Tounens once again, and was thrown into prison. When he became Antoine Tounens again, his country, France (not Aracania) thought of him at last, and he was liberated after some months in a Chilean prison, and sent back to France, where he was treated as a joke. "Marguerite was a beautiful girl. Tall, fair and brilliantly clever, she had been sent to Europe to complete her education, when Antoine Tounens, the lawyer, developed into Aracania's king. She looked every inch the princess, and assumed the title, which nobody thought of grudging her. Her father kept her well supplied with money, and Princess Marguerite traveled all over Europe, completing her education, and gaining experience for the formation of the brilliant court of Aracania which was her father's ambition."

"One day, in Germany, she was yachting with friends, when a sudden gust of wind swept her overboard. A young Danish lieutenant rescued her. He was poor but good looking. He won the heart of Princess Marguerite, and married her against her father's wish. King Orelie had hoped that she would marry a young German prince, and was very angry. But his hands were full of state matters at that time, and he did not order the princess back to Aracania. She was unhappy in her marriage."

"I do not know the details, but I know that one day in her presence her husband drew a pistol and shot himself. His body was sent home to Denmark. A few weeks afterwards news came across the ocean of the end of Aracania, and Europe, which knew little about the details of the distant kingdom or of King Orelie's hopes and ambitions, was much amused."

"Marguerite Tounens, princess no longer, went to live in Denmark to be near the grave of her husband. Her money gave out, her poor father could help her no longer, the world forgot all about her, and most people thought that she was dead. And a few days ago, in the Rysgade hospital, died a handsome woman of 50, a Frenchwoman with a Danish name, who had given French lessons for thirty years to buy herself food."

Mrs. A. R. Taber, of Crider, Mo., had been troubled with sick headache for about five years, when she began taking Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headache is caused by a disordered stomach for which these tablets are especially intended. Try them, get well and stay well. For sale by all dealers.

New York, Feb. 9.—"Jeff" Davis and Ulysses S. Grant are living amicably together in the same suite of rooms at the Hotel Astor. Also they are united in a single effort to make people so south. They did not come from beyond the Styx. Instead they rolled in from Washington, D. C., in a parlor car.

Persons troubled with partial paralysis are often very much benefited by massaging the affected parts thoroughly when applying Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

WOMAN ON BENDED KNEES.

Makes Proposal of Marriage and Is Wedded Free of Charge.

Indianapolis, Feb. 9.—By certifying that she had proposed marriage on her bended knees, Miss Fannie Merida, of this city, was married today to Charles H. Ogborn, a Hendricks county farmer, without cost to the latter. The ceremony was performed by Squire Manning, who said that he would tie the knot free of charge to couples in which the girl had made a "real leap year proposal."

At the suggestion of a friend, Miss Merida wrote to Ogborn, requesting him to call. Ten minutes after he arrived at her home she had proposed and had been accepted. A few hours after the ceremony the couple was on its way to Mr. Ogborn's rural home.

HEARST ROUTS HETTY GREEN.

Forces "Richest Woman" to Accept His Terms in Paying Mortgage. New York, Feb. 9.—Mrs. Hetty

Green, known as the richest woman in the world, "attempted to extort money" from William Randolph Hearst, according to C. M. Bovee, attorney for the editor, who obtained an order in court directing Mrs. Green to appear and show cause today why she should not be compelled to accept \$275,000, with interest up to last Monday, in payment of a mortgage she held on Hearst property.

Mrs. Bovee withdrew the order during the day saying Mrs. Green had "capitulated" and turned over the mortgage for the amount named by Mr. Hearst.

Mrs. Green said she had believed she was entitled to \$1,145 additional interest.

NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body." He continues, "so we may be said to live (through) the stomach." He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion, or dyspepsia, the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breast-bone," writes Miss G. M. MURKIN, of Corona, Calif. "I had suffered from it, off and on, for several years. I also suffered from heart-burn, did not know what was the matter with me. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not dare to eat as it made me worse. When over I swallowed anything it seemed that I would faint—it hurt so. I grew very thin and weak from not eating. Was told to take Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat a little without pain and grew strong fast. Today I am strong and well and can do a big day's work with ease. Can eat everything and have not a flesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."

MISS MURKIN.

HAVE PUT OVER A BIG SUCCESS

Shriners Get Congratulations on "Are You a Mason?"

NEARING ITS CLOSE

Congratulations are pouring in from every quarter upon Mizpah temple, Nobles of the Mystic Shrine, upon the success of their big entertainment enterprise, "Are You a Mason?" which is enjoying a phenomenal run at the Majestic this week. Clearly the Shriners have put over a success.

The engagement of the big farce comedy is drawing to a close—the performance this evening and the matinee and night performances tomorrow bringing the production to an end. The production in the hands of a capable cast supporting Miss Louise Dunbar, has been so thoroughly good as to win uniform praise, while the Shriners themselves are entitled to no small share of credit for the gorgeous oriental spectacle with which they bring each performance to a close. It is a feature that is thoroughly worth while.

Thousands have enjoyed the offering of the Shriners during the entire week, and big audiences will be the rule to the end, though some seats are yet available for each of the three remaining performances.

Cascarets Cleanse Liver and Bowels

No Bilelessness, Headache, Sick, Sour Stomach, Indigestion, Constipation, Tongue or Constipation.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.
